

# Ty Yiu's CV | CV

## Ty Yiu

Futurist, Technologist, Creative Hacker.

20.Nov.1998 | Male | German

[Tyiu@me.com](mailto:Tyiu@me.com) | [My website](#) | [Github](#)

## Currently

Data quality enhancement of product information using machine learning systems & process automation at “APS Glass & Bar Supply GmbH”

## Specialized in

Identification of potential optimisations in operational processes, integration possibilities of machine learning, data leveraging and all sorts of technological implementation techniques.

## Research interests

Digital & intangible value creation & capture.

Automata theory application in operational processes, practical approaches to increasing technological adoption (internal motivation & external pressure)

## Education

2006–2015 [Sachenwald Gymnasium, Reinbek](#)

- Specialisation in Theoretical Physics

2015–2017 [St. Leonards international school, St. Andrews](#)

- International Baccalaureate
- Specialisation (“higher level”) in Physics, Economics & English literature
- “standard level” subjects: German, chemistry, french, math

2017–2020 [Hult international business school, London](#)

- Triple accredited Bachelors of Business Administration

- Capstone programme: Hult founders lab, creating a startup in a semester
  - Small enterprise integration of plug-play automated systems
- Thesis: Digital business hacking - moving to intangible value creation and increasing efficiency in transforming processes
- Diploma: [here](#)

## Experience

### 10 2015 Airbus

- Position: Intern
- Responsibilities: Observing processes in aeroplane manufacturing & planning of the A380

### 08/09 2015 [Brand:Marke](#) - Digital advertising agency

- Position: Intern
- Employer: Brand:marke hamburg GmbH, Nils Julius
- Responsibilities:
  - Conception of innovative (digital) advertising campaigns
  - Web design
  - Management for “FDP Fraktion Hamburg” re-branding & concrete design for new website

### 08/09 2015 [Kontor Records](#) - Music label

- Position: Intern
- Employer: Kontor Records GmbH, Jens P. Thele
- Responsibilities:
  - Overhaul & Redesign of the ‘kontor.tv’ [youtube channel](#) branding
  - Customer care & support
  - Experience innovation & digital rewards to online listeners

### 2017 [Ciu “Die Bar”](#) - Cocktailbar

- Position: Bartender
- Responsibilities:
  - Excellent customer facing service provision

### 2017 [Bayside Scharbeutz](#) - Bay’s Nightclub

- Position: Lead Bartender
- Responsibilities:
  - Delegation of service staff
  - Ensuring smooth running operations

### 2017 [FirstClass Mobil](#) - Car rental service

- Position: Driver
- Responsibilities:
  - First class customer facing service provision

Mid 2017 **Porsche Drive**

- Position: General Event Manager
- First Hamburg division / establishment
- Management of Porsche Drive presence and operations at ‘Porsche European Open’ event

Early 2020 **Ager - Digital services**

- Position: Owner & CEO
- Responsibilities:
  - All programming, management, marketing; all operations & administration
- Germany wide spanning small hospitality business Covid-19 relief programme in cooperation with German corporate enterprise “Thomas Henry”.
- Thousands of monthly users
- [Facebook Site](#)

Aug 2020 - today **APS Glass & Bar Supply**

- Position: IT specialist
- Responsibilities:
  - Data quality enhancement of product information using machine learning systems
  - Automation of operational processes
  - Internal & External consulting in terms of the covid-19 pandemic & digisation trends

## **Skills & competencies**

### **Fluent languages spoken**

- German, English, French
- Intermediate languages:
  - Spanish

### **Other competencies**

- Digital: 3D CAD, virtual reality & augmented reality experiences, Adobe suite (Photoshop, InDesign etc.), MS office suite, Google suite, 3D animations (blender, unreal engine)
- Technical: electronic circuits & assembly, soldering, digital connection to logic controllers (esp8266’s, arduino’s, raspberry pi’s)
- Other: networking, data storage redundancy,

## Computing competencies

### Languages

Python for machine learning, data science & computer vision (tensorflow, pytorch, scikit-learn, numpy, matplotlib, pandas, opencv) - Haskell or C (++) for high performing programs - Js for progressive webapps (reactjs, angularjs) - Swift for ios apps (besides building hybrid-apps with web technologies like dart, flutter, ionic or amp)

### Tools & Frameworks

#### Networking & Backend

- Server: linux, flask, express, apollo
- Server communication: graphql > rest, relay / apollo
- Cloud operations: google cloud, continuous integration & deployment
- Database Management: SQL, MySQL, SQL Maestro, MariaDB, MongoDB

#### The Command-line

- Linux: Bash/Zsh for automated scripting, Git, Vim as my text-editor, Tmux as session manager

## Software Projects

Most of the total code of the listed projects below is open source.

### 2019 **Digitising a city into a 3d virtual world**

- Using satellite data and openmap public data, we created a prototype proof of concept, that a whole city could be turned into a virtual copy.
- Contributors: Felix Kahlbrock
- [Video demo](#)

### 2019 **[Adid](#) (ios app)**

- The easiest way to share contact details offline via QR code with newly acquainted strangers.
- No wifi, bluetooth, airdrop or similar required.

### 2020- **[Virtual Identity Card](#) (personal info website)**

- After the positive feedback from “[Adid](#)”, a cross-platform accessible view was built, to allow users to share their profile data via a link.
- [Interactive demo](#)
- [Video demo](#)

### 2020- **[Digital menu](#) (hospitality / retail)**

- In context of the 2020 pandemic, the touching of menus in e.g. restaurants became irresponsible.

- Part of covid-19 aid programme for gastronomy & retail businesses.
- [Interactive demo](#)

2020– **Contact-tracing software** ([hospitality](#) / [retail](#))

- Automatic customer logging for hospitality required in context of the covid-19 induced pandemic.
- Germany wide spanning small hospitality business covid-19 relief programme in cooperation with “Thomas Henry”.

2020– **Feedback system** ([Experience Management](#))

- Full-stack, graphql powered, serverless, cloud platform, with API for custom integration.
- B2B plug & play customer, employee, product, support, event, ... feedback system.
- Create campaign & customise and use qr codes in-situ for access.

## Notable achievements

2015–2016 Managing director in “[Young Enterprise](#)” programme, with received [certification](#).

2019 Mobile application design course, with adjunctive partner “[Zanshin labs](#)”, absolved during the “Hult international BBA programme”, with received [certification](#).

May 2019 **Presidents Summit**

- Business conference with multi-national corporation’s CEOs in Kopenhagen
- Networking events & further voluntary education

2020 The contact tracing software in deployment and use in restaurants, cafés & bars all over germany, surpassed 25,000 active users in its first month online. At this time, there are 500+ new users every week and 100,000+ interactions per month.

2020 Code repositories of mine have been stored on silver-halide film in the artic, preserved and securely stored forever.
